HORIZON 2020

## "Setting" of the NCP...!

- ✓ Research Promotion Foundation
- ✓ Established in 1996 by the Government of the Republic of Cyprus as an Independent organization, serving as the National Research Funding Agency
- 2 Broad Categories of Activities:
  - Designing, Launching and Monitoring of the National Research and Innovation Programmes
  - Coordinating the participation of Cyprus in European Research Programmes and Initiatives:
    - Framework Programmes of the EU, COST, EUREKA,
    - Bilateral Agreements on R&D

## "Setting" of the NCP...!

### ✓ The Role RPF:

- Coordinating the activities concerning the participation of Cyprus in Horizon 2020
- Hosting the NCP Network for Cyprus (Team of 12, including Head-of-Unit and Helpdesk) and **coordinating Cypriot representation in the Programme Committees**
- Collecting and processing data regarding Cypriot participation

# H2020 in a Nutshell

Projects are funded through competitive Calls-for-Proposals

Policy Background:  
Europe 2020 and 7 Flagship Initiatives (Digital Agenda, Innovation Union, Youth on the Move, Agenda for New Skills and Jobs etc.)

EU's largest legal Instrument

- Funding *Research & Innovation*
- ≈80 billion (2014-2020)

Simplified Access

- For *companies, universities, young people*
- Entities in EU and beyond

Three Pillars

- Targeting *Excellent Science, Industrial Leadership, Societal Challenges*

# “Truths” to...Realize Before Starting..!

- The Proposal is **NOT** a Paper/ Article for a Journal...
- It is a... “marketing/ sales” pitch of your research...  
→ so as to receive funding...!
- EC has been doing this for quite a few FPs...  
There are **particular policy and mandate backgrounds**. There’s a **particular language-jargon, structure, process**...
- The philosophy is “**Competitive Calls**” for Proposals...  
**NOT “subsidies”...!**

## “Truths” to...Realize Before Starting..!

Research  
Promotion  
Foundation

- You need **EUROPEAN ADDED VALUE...**
- Problem/ Issue attempted to be solved or the technology/ innovation attempted to be developed **cannot be of local or regional character but rather of pan-European... scale/complexity of the “solutions” for EU and not “just X-Country”.**
- **Transnationality, replicability and transferability** should be the keywords for both the “challenges”/ “problems” addressed, and the “solutions” proposed.
- not just through “transfer of knowledge” or “networking” or “EU-wide dissemination”, but rather it should be clearly shown in the proposal how the issue addressed is of a “wider interest” and how the solution proposed indeed has wide applicability.

# Evaluation Criteria...

- Know the Evaluation Criteria – their Weightings – and their ExAequo Priority
- In all H2020 we have: “Excellence – Impact – Implementation”
- However, MUST consider also “Cross-Cutting” Issues:
  - Gender Balance in the Research Teams
  - Social Dimension and Impact
  - Inclusion / Involvement of Private Sector, particularly SMEs
  - Ethics and Security Issues
- Address the Specific Challenge – the Scope – and the Expected Impact !!!
- Try to present your proposal against the background of the relevant Policy Context (Strategies, Initiatives, Directives, Communications, White/Green Papers, etc, etc...)

# “Hints-&-Tips” by the NCP

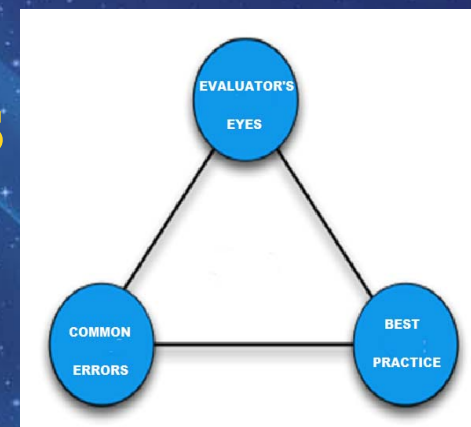

# Time for an Energizer! Brainwalk on Proposal Writing

(3 groups – 3 flipcharts – 1 rapporteur – 20 minutes)

**Evaluator's Eyes  
Best Practice  
Common Errors**

"Hints" ...

"Tips" ...

## → Common Errors

- Proposal written as Scientific Paper
- Objectives and "state-of-the-art" are elaborate and in-depth, but Implementation/ Methodology, "beyond-the-state-of-the-art" and Impact are under-developed
- Unclear Aims and Objectives
- Over-ambitious...or...Under-shooting...
- **Not addressing Scope and Expected Impact of the Topic...!**
- Off page limits...! Template/ structure not followed!
- Essential parts disregarded
- Not-final...Wrong draft submitted...!

"Hints" ...

"Tips" ...

### → What Evaluators expect

- Well-organised, "flowing" text. Proposal should make the Evaluator's "life" easier: consistent, well-written, following guidelines/templates.
- Proposal should help the Evaluators score it more easily: "built" around the Evaluation Criteria.
- Proposal has to convince that it will add value in the specific field, for the EU at large.
- Clear description of the **contribution to beyond-the-state-of-the-art**, as well as of the **competencies and synergies of Consortium**.
- Clear Work Plan with **Contingency Planning, IPR management considerations, and Outreach/Dissemination Plans**.

"Hints" ...

"Tips" ...

- Evaluators don't have too much time...  
Keep it simple and concise
- Always revisit the Criteria-questions... **Stay within "Scope" and "Expected Impact"**  
(→ copy from Documentation and work around it)
- No duplications of previous works/projects, but... building on them
- Clear language and organised contents
- Explain abbreviations / Use Glossary
- Use tables and diagrams (relevant and easily understandable)
- Use Structure and Table-of-Contents from Templates... Use Headings and subheadings from Templates...

General

"Good Practice"

"Hints" ...

"Tips" ...

- Use Margins and Font Size / Page-Numbering / Page Limits set in Templates...!
- **Accurate, Verifiable and Professional content (refer. where needed)**
- No "emphatic" statements and claims that are unsubstantiated
- Consistent in UK English throughout. NO jargon or slang.
- **Write for the "non-specialist" – educate te Evaluator to understand what you want to do and why it's worth the funding... !**
- No typos, no inconsistencies, no obvious cut-&paste, no numbers which don't add up, no missing pages...
- Proof – Read at the end...

## General

"Good Practice"

"Hints" ...

"Tips" ...

Good to follow the  
"Logical Framework" approach:

- WHY a project is carried out
- WHAT it is expected to achieve (and what not...)   
→ So, Project Objectives (and non-Objectives)
- WHO is going to do the work...   
→ So, Consortium and the synergies and complementarity of Partners
- HOW the project is going to achieve the above...   
→ So, Work-Plan and Phases of Work, as well as Means/ Resources to be utilized.
